

ONE MILLION WOMEN.
RESEARCH GOAL.
ONE REVOLUTIONARY OPPORTUNITY.
TOGETHER WE CAN PREVENT BREAST CANCER.

The Love/Avon Army of Women, a partnership between the Dr. Susan Love Research Foundation and the Avon Foundation, provides women of every age, ethnicity, and breast cancer risk the life-changing opportunity to directly impact breast cancer research. By partnering with scientists and participating in research studies, you can help us learn how breast cancer starts and how to stop it once and for all.

THE LOVE/AVON ARMY OF WOMEN WILL...

- *Encourage research into **what causes normal breast cells to become cancer cells.**
- *Shift the focus from finding breast cancer early to **preventing it in the first place.**
- *Provide researchers access to volunteers so the focus can shift **from lab to women.**
- *Empower women to **participate in breast cancer research.**

Women who are interested register at www.armyofwomen.org. Army of Women staff notify volunteers via email about studies that need volunteers. Women who fit the criteria respond to the email to express their interest.

Sign up for your sister, mother, daughter, granddaughter, best friend, and the woman you met last week. Breast cancer has been around for decades, but it does not have to be our future. We can be the generation that stops breast cancer once and for all. This is YOUR chance to be part of the research that will end breast cancer.

ONE MILLION WOMEN. ONE RESEARCH GOAL.
ONE REVOLUTIONARY OPPORTUNITY.
Together we can prevent breast cancer.

The key to ending breast cancer is to stop it before it starts.

The Love/Avon Army of Women provides women the life-changing opportunity to partner with the scientists who are conducting the research that will move us beyond a cure and teach us how to end breast cancer once and for all.
